

Container::end

```
graph LR; A[Container::append] --> B[Container::end];
```

The diagram consists of two rectangular boxes. The box on the left is shaded gray and contains the text 'Container::end'. The box on the right is white and contains the text 'Container::append'. A dark blue arrow points from the right side of the 'Container::append' box to the left side of the 'Container::end' box, indicating a call or flow from the append method to the end method.

Container::append
