

*VecCon::validate*

```
graph LR; A[VecCon::validate] --> B[VecCon::getId]; B --> C[VecCon::numOfCons];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text *VecCon::validate*. A blue arrow points from this box to a white rectangular box containing *VecCon::getId*. Another blue arrow points from the second box to a third white rectangular box containing *VecCon::numOfCons*. All boxes have a black border.

*VecCon::getId*

*VecCon::numOfCons*
