

*Container::begin*

```
graph LR; A[Container::append] --> B[Container::begin];
```

A diagram showing a call from `Container::append` to `Container::begin`. The `Container::begin` box is shaded gray, and the `Container::append` box is white. A blue arrow points from the right side of the `Container::append` box to the left side of the `Container::begin` box.

*Container::append*
